

Wildix USB 2GB Key Storage is a USB drive resistant to high temperatures. **Operative temperature: up to 85° C**, aluminum case, up to 100 000 write/erase cycles, read speed 22 MB/sec and write speed 18 MB/sec thanks to NAND Flash Technology.

Backups, configuration and other essential data of Wildix system is stored on the USB stick, to ensure fast replacement.

## Technical specifications

<b>Compatibility</b>	USB 2.0 Standard compatible
<b>Flash Technology</b>	NAND Type Flash Memory Based
<b>Flash Capacity</b>	2GB
<b>Dimension</b>	W 13.5 x L 32.0 x H 4.5 mm
<b>Weight</b>	4 g
<b>Erase Cycles</b>	100,000 times
<b>Media Transfer Rate</b>	Read: 22 Mbytes/ Second max Write: 18 Mbytes/ Second max
<b>Wide Temperature</b>	Operating: -40°C to +85°C Storage: -50°C to +95°C
<b>Power Supply</b>	DC 5V ± 10% via the USB port
